

Mini Crawlers

Used Mini Crawler Victorville - Our different programs for Mobile Crane Operation are intended for experienced operators who needs re-certification or certification, and for inexperienced individuals who are looking for their very first work as a crane operator. Industry demand for certified crane operators is high all over the nation. Crane operator positions are high due to their high pay. Operators of cranes are among the highest paid of any heavy machine operator. Our Crane Training Schools feature training and instruction for various mobile cranes. Course content comprises Wire Rope, Crane Set-up, Load Dynamics, Lift Planning, Signaling, Load Charts and Rigging. The program is best for crane operators, riggers and their supervisors. The materials incorporated in the course will include a guidebook and various informative handouts. The safety guidebook that is illustrated consists of 100 to 250 pages, which depends on the course, of helpful and vital material. Course materials comprise load charts and load chart exercises for the crane with which the trainee is working. Hands-On Safety Training will take up more than half of the course curriculum. The practical training part is the most helpful method to improving and developing personal skill levels. Just skilled journeyman crane instructors are chosen to teach the courses. Our instructors have numerous years of practice in the industry. For all the course we provide, we can include optional testing mechanisms to customize your training. A skills test is normally administered for programs that comprise H.O.S.T. People training would be tested and graded. We offer certified training programs for the following cranes: Lattice Boom/Crawler Cranes; Fixed and Swing Cab Mobile Hydraulic Cranes; Rigging / Signalperson Certification and Training; Articulated Boom / Knuckleboom Cranes; Testing & Certification; and In-The-Seat Training. Industry standards of practice are evolving as new industry requirements emerge. There are continual updates to regulations and legislation. Enhancements in technology and equipment continue to be made. Industry data analysis and collection detect trends which are changing. Members maintain the advantage of managing their training programs and certifications. Mobile device alerts keep members abreast of personal and workplace safety news.
